

24 May. 16

To Whom it may concern,

We have been using Swiftsure for approximately four years providing us with building works of various shapes and sizes. It is my view that Swiftsure and in particular Dan, provide a service that is second to none. Not only is he thorough, knowledgeable and intuitive but he and his guys are very quick and capable.

I am based at James Allen's Girls' School (a private girls' school in Dulwich). I have used Swiftsure on numerous projects ranging from small uncomplicated builds to large projects that have needed considerate coordination from him and the specialist contractors that he uses. One such project was to convert an old squash court into a climbing facility up to 9 metres high. While Swiftsure didn't complete the climbing wall itself, they built and constructed a viewing gallery and entrance that quickly became the focal point of the whole facility.

I will continue to use Swiftsure (or at least consult) on the majority of my future building work projects as I have complete confidence in their ability to complete work to a high standard. Also because I believe Dan and his team are extremely considerate and committed to completing work to a high standard.

Andy Powell
